Extra Curricular Program Pack

North Kellyville Public School is pleased to increase the extracurricular programs that are on offer in 2020. The majority of these programs are run only due to staff giving up their time to provide new and exciting opportunities for students to develop and learn new skills in a wide variety of areas.

Within this pack you will find the extra curricular programs that will be offered at North Kellyville Public School this year. Attached is a timetable displaying when these group will occur during the week. You will also find an overview of each of the programs providing you with further information regarding age groups, costs, descriptions and who will be coordinating these groups.

We appreciate your ongoing support in these programs as we aim to offer our students with as many opportunities as possible. Unfortunately, many of our activities occur on the same day as others so students are asked to choose carefully. Some of these activities will incur costs which will be outlined in permission or information notes once groups have been chosen and invoices will be sent out. Please speak to your child about the activities that they would like to participate in and make sure that they attend the try-out session outlined below.
